

BHS Beverage Policy

Effective immediately, bottled water is the only beverage allowed in class.

The water must be free from coloring or aftermarket additives (ie., drink mixes or candy). The bottle must be clear with no tint or coloring. No colored drinks will be allowed in the halls or class at any time. Outside fountain drinks and coffee are also prohibited. Prohibited items will be confiscated.

During lunch, students can purchase smoothies and other flavored beverages but they must be consumed in the cafeteria. Water is available free of charge during lunch as well. Students may still bring juice boxes or canned beverages but they can only be opened and consumed in the cafeteria during their lunch period.

Students found in possession of prohibited items will be in violation of the BCSD Code of Conduct and given appropriate consequences.
